

SONOR DRUMS '90

 **SONOR**®

# SONOR QUALITY

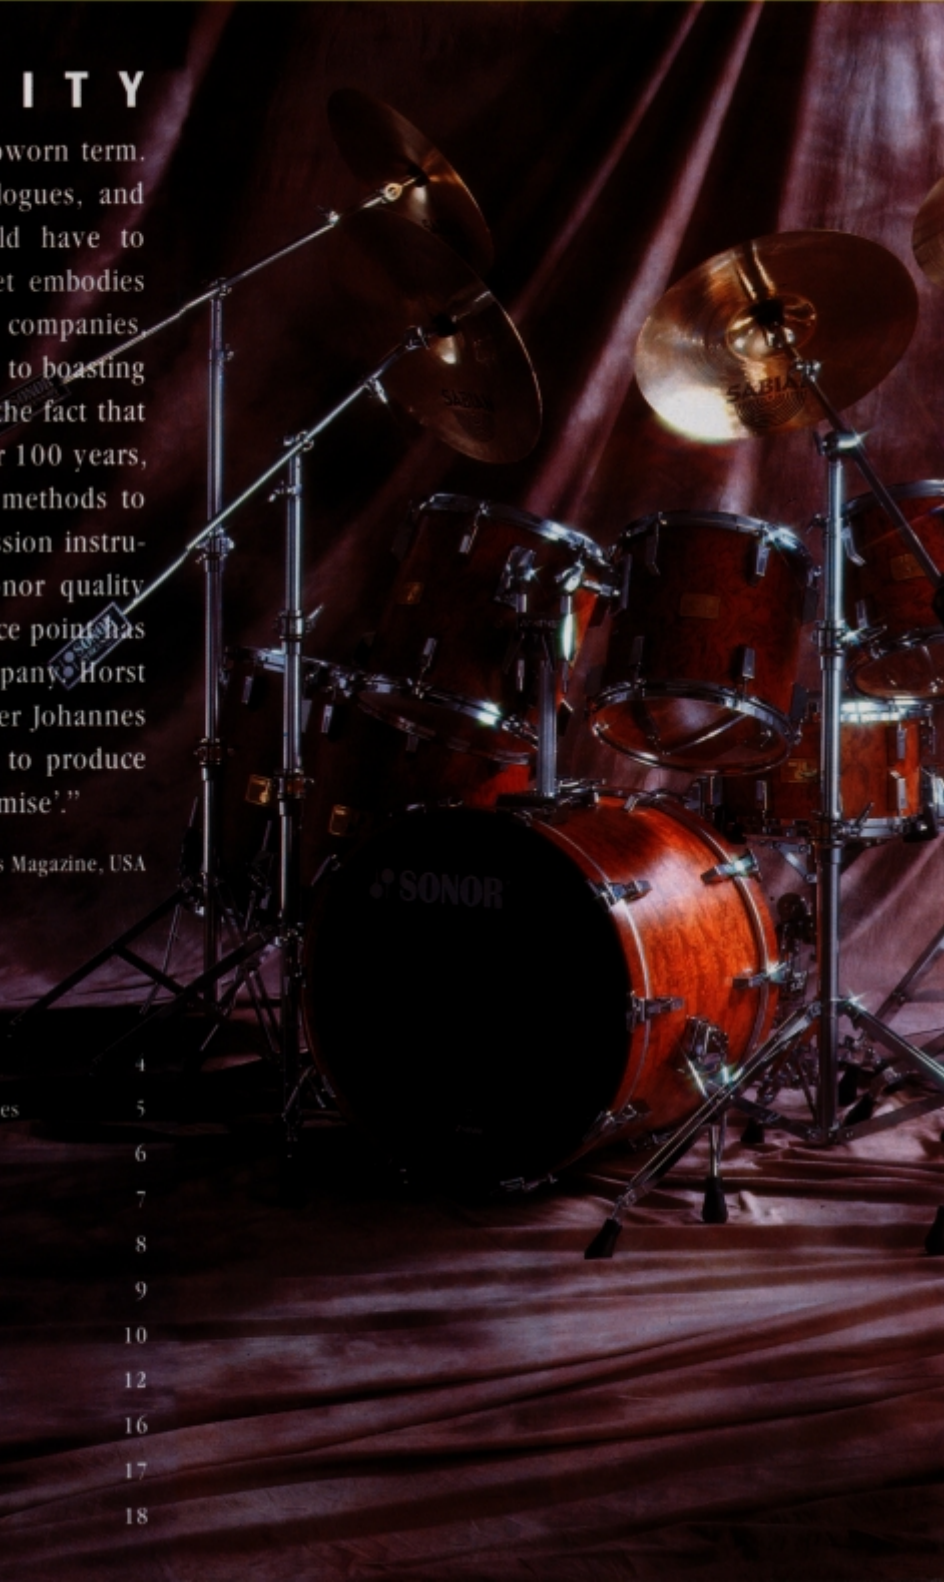

"Quality is possibly the world's most shopworn term. Based on the music industry's ads, catalogues, and general corporate propaganda, one would have to conclude that every product on the planet embodies the highest level of quality. Like most companies, Germany's Sonor Percussion is accustomed to boasting about its quality. What sets Sonor apart is the fact that its talk of quality is no idle chatter. For over 100 years, Sonor has employed exacting production methods to create a line of meticulously crafted percussion instruments that are flawless in every way. Sonor quality does not come cheap, but then hitting a price point has never been a primary concern at the company. Horst Link, president and a descendant of founder Johannes Link, explains, 'Our goal has always been to produce the best products possible, without compromise'."

## SIGNATURE SERIES

Each drum in the special edition Signature Series bears the signature of Horst Link, President of Sonor. This expresses his personal commitment to uncompromising quality. The top-of-the-line Signature Series is a special edition of the world's finest drums. Deep, 12-ply beech shells constructed with African Bubinga and Indonesian Makassar Ebony veneers, provide high shell strength. The unconventional wooden shells are formed tension free, which means that the single plies form a solid sound unit. The shell doesn't absorb sound and it maximizes drum head vibrations. The quality is convincingly expressed by the industry's first & only ten-year limited warranty.

Every aspect of construction, from shell to lugs to strainer, is precision built with hightech German craftsmanship. You can see the quality, inside and out.

Signature Series drums  
are available in

**RH** African Bubinga  
**EB** Makassar Ebony

## SIGNATURE SERIES

**HLD 590** 8" x 14" Bronze shell
